SKILLS

MERN | React.JS | JavaScript | Node JS | Express | REST APIs | MongoDB (NoSQL) | Tailwind CSS | HTML/CSS | BootStrap | Redux | Git | GitHub || **Familiar** : Python, C++, C

EDUCATION

BS (CS & IT) - Universty of Azad Jammu & Kashmir Mzfd

November 2019 - December 2023

 Muzaffarabad, AJK

HSSC (XII) - New Allama Iqbal Model Science College BAGH

April 2017 - July 2019

 BAGH, AJK

SSC (X) - Govt Boys High School Pees Jhola

March - 2017

 Pees Jhola, Bagh AJK

PROJECTS

CostCutters (Recommendation System) - Developer

- CostCutters is a proposed price comparison and sales alert website that utilizes web scraping to identify the cheapest products on competing websites and compares them to those found on CostCutters itself.
- Recommendation engine that uses web scraping techniques to gather data from competing websites and compares prices to identify the cheapest products.
- CostCutters will be developed using the MERN (MongoDB, Express.js, React.js, Node.js) frameworks.

Weather App - Developer

- This weather app provides users with accurate and up-to-date weather information.
- It is built using React JS for a smooth user experience and Tailwind CSS for a modern and responsive design.
- The app utilizes a free API to fetch weather data, making it accessible to everyone.

HOBBIES

- Coding Challenges & Hackathons
